ABSTRACT

This publication contains statistical profiles of Connecticut's 165 public school districts, both town-operated and regional. Data given for each school district describe community characteristics, superintendent's office information, enrollment of pupils overall and by major subgroups, proficiency test results, program offerings, staffing characteristics, and educational funding and expenditures. Also given are the following: (1) community data, education equalization data, and aid and expenditure data for 20 towns which do not operate school districts; and (2) school, enrollment, program, test, and staff data for three endowed and incorporated academies and the E.O. Smith School. Finally, definitions of key terms and sources of information are provided. (KH)

FOREWORD

With this edition of Connecticut *Town and School District Profiles, 1982-83,* the publication, which was formerly one volume in a three-volume series called *Condition of Education,* becomes a separate publication. The Department of Education will report on the condition of education in Connecticut in another document.

The content and format of *Town and School District Profiles* remains unchanged. Educators and the general public alike will find a variety of useful data about education in Connecticut's 165 public school districts. Presented in a two-page format, the statistical summaries for each town present community characteristics, superintendent's office information, enrollment of pupils overall and by major subgroups, proficiency test results, program offerings, staffing characteristics, funding and expenditures.

Past demand for this annual publication indicates a wide interest in facts about our educational programs. The State Department of Education is committed to supplying accurate and timely information about our public education system to all interested users. This information should help all of us in our search for new ways to improve the education of the pupils in our schools.

Gerald N. Tirozzi
Commissioner of Education

Amounts shown are phased-in minimums.

EXPENDITURE DATA

All expenditures shown in this section are based on fiscal reports submitted by local school districts, "End of Year School Report," Form ED-001, September 1983. Expenditures are grouped in terms of function, i.e., the purpose for which an expenditure is made. Unless otherwise noted, expenditures include expenditures from federal, state and local funds.

Total Expenditures	All expenditures for programs and services for public elementary and secondary school students, except expenditures for adult education programs, community services, and services for nonpublic school students. Total expenditures include expenditures for resident students educated outside the district as well as expenditures for students, resident and nonresident, who attend district schools. Net Current Expenditures	Total expenditures, as defined above, less the sum of expenditures for pupil transportation and capital equipment and tuition receipts for nonresident students. This amount represents current operating expenditures for all resident pupils. The per pupil amount is based on the average daily membership of the district.

Fiscal and Other Support Services	The sum of district expenditures for fiscal, business and central office services. The per pupil amount is based on the total number of students in the district.
Transportation	The sum of district expenditures for all pupil and other transportation. The per pupil amount is based on the number of students reported as receiving transportation to public and nonpublic schools at the expense of the local public school district.
Food Services and Student Activities	The sum of district expenditures for food services and student activities. This sum represents gross food services expenditures plus net student activities expenditures (i.e., total student activities expenditures less revenues from student activities). The per pupil amount is based on the total number of pupils in the district.
Operation and Maintenance of Plant	The sum of district expenditures for the operation and maintenance of school buildings and property. The per pupil amount is based on the total number of pupils in the district.
Tuition Payments to Other Districts	The sum of district expenditures for tuition for resident students educated outside the school district. The per pupil amount is based on the number of resident students for whom tuition is paid.
Land, Buildings and Debt Services	The sum of district expenditures for the acquisition of land and buildings and payments of the principal and interest on school bonds. The per pupil amount is based on the total number of students in the district.
Net Current Local Education Expenditures	The sum of education expenditures from local taxes excluding any expenditures for adult education programs, health and welfare services for nonpublic school students, and capital expenditures. The per pupil amount is based on the district's average daily membership (ADM).

(continued on next page)

Net Current Local Education Expenditures (continued from preceding page)	No amount is shown for high school regional school districts. Local taxes used to support high school districts are included with local taxes for elementary school districts in the member towns.
